

Primary Trunk Line

Distance: 982.41 Feet

1396' extension wire

Sams Road

284'

640'

110'

This is one area that probably isn't practical right now. Total wire would be about 2400'. Believe that wire is underground. However average would be 1 house every 800'. 1 camp and 2 year round houses Currently 1 year round resident I believe. Compare to Johnson Pond 1 house in 2100' or Townsend Road 1 house on private in 1580'.
