Mapped primary service line

Possible short cut to Daleys

All houses have power. Not sure if via poles or underground. There was a small spur here on prior map. Most other similar private drives show the primary service line going up the drive partially or completely.

May not be completely necessary to specify this here as the number of house per mile in the extension area is enough to get maybe a 1000' feet of free cable if an extension is asked for in the future.

Wildwood Way
4 homes to this point
Most look like they could be year round homes but currently occupied seasonally.
c. 900' to this point from main power line near Hoffman.
