Application & \$15 Fee Deadline: January 3rd, 2025
Exam Date: February 8th, 2025

Scopes / Subjects of examination: A test designed to evaluate knowledge, skills and /or abilities in the following areas.

Coding/decoding information

These questions test for the ability to follow a set of coding rules. Some questions will require you to code information by converting certain information into letters or numbers. Other questions will require you to decode information by determining if the information that has already been converted into letters or numbers is correct. Complete directions will be provided; no previous knowledge of or training in any coding system is required.

Name and number checking

These questions test for the ability to distinguish between sets of words, letters, and/or numbers that are almost exactly alike. Material is usually presented in two or three columns, and you will have to determine how the entry in the first column compares with the entry in the second column and possibly the third. You will be instructed to mark your answers according to a designated code provided in the directions.

Understanding and interpreting written material

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.

Following directions (maps)

These questions test your ability to follow physical/geographic directions using street maps or building maps. You will have to read and understand a set of directions and then use them on a simple map.

Retaining and comprehending spoken information from calls for emergency services

These questions test for your ability to retain specific information that is heard in calls for emergency service, such as a street address, or to comprehend spoken information from emergency service calls, such as determining the location of a site in relation to landmarks. Simulated 911 calls will be played via MP3 download. Immediately following each call, candidates are given audio instructions identifying which questions they are to answer within the test booklet. The questions that candidates are directed to answer for each simulated call will not be in sequential order. Candidates will need to retain and comprehend the information and instruction provided in this portion of the test to respond appropriately to the questions asked and to determine which questions to answer. The time allotted to answer these questions will be limited. At the end of each answer period, the MP3 download will automatically play the next call. Note paper will be provided. Candidates will be permitted to take notes and to refer to them when answering the questions.

Test guide: The New York State Department of Civil Service has **not** prepared a test guide for this examination. However, candidates may find information in the publication '*General Guide to Written Tests*' helpful in preparing for this test. This publication is available online at:

<https://www.cs.ny.gov/testing/testguides.cfm>.

Use of calculators is ALLOWED

Performance Test: A performance test will also be held at a later date, to be announced. The written test will be a ranking test, and the performance test will be a qualifying (pass/fail) test. You must pass both the written and performance tests to be considered for appointment. You will not be called to the performance test unless you have passed the written test. Since the performance test is qualifying (pass/fail), if you pass the performance test your final score for the examination will be the score that you achieve on the written test.

Candidates may be invited to the performance test in the order of the scores they achieve on the written test. Essex County reserves the right to give the performance test to only as many candidates as are needed to fill available vacancies.

The test will be administered on a conventional personal computer (PC). You will be using a conventional PC keyboard, but you will not be using a mouse.

Subject: The test consists of three parts, each preceded by a separate practice session. It will test your ability to enter the kinds of information that dispatchers and related personnel must process for fire, police, and emergency medical services. You will not need any specific information prior to the test; rather, complete on-screen instructions will tell you all that you need to know in order to take the test. In order to pass, you must enter the data at a rate of at least 6,000 keystrokes per hour (which is equal to typing approximately 20 words per minute), with an accuracy rate of at least 97.5%.

Retest Policy: Candidates who fail the performance test will be permitted a retest which will be given on the same day as the original performance test.
